ASSOCIATE DEAN'S MESSAGE

We welcome you to the School of Commerce, Navi Mumbai. We are a part of the thriving NMIMS, Navi Mumbai campus, which apart from programs in commerce offers programs in Management, Engineering, Law, Science, and Economics. In our School of Commerce, we offer three programs at the undergraduate level namely Bachelor in Business Administration (BBA), Bachelor in Commerce (B. Com (Hons)), and a Bachelor in Science majoring in Finance (B. Sc. Finance).

All three programs have a distinct focus, while the BBA program focuses on general management and business administration, the B. Com (Hons) program is more directed towards subjects such as accounting, auditing, and taxation, the B. Sc. Finance program, on the other hand, has a larger focus towards corporate finance and investment management.

All our programs are very uniquely designed and are both contemporary and interdisciplinary in nature thereby offering rich learning to our students. The robust infrastructure at the campus namely the library facilities and the Bloomberg terminals supports this learning process. Through our curriculum and through a mandatory internship with an NGO which our students have to undergo, we develop social consciousness and awareness among our students.

We believe in the holistic development of our students and to fulfil this objective, at the campus level, we have established various clubs and committees which provide opportunities to the students for co-curricular learning, at the school level also we organise various speaker sessions on contemporary topics and on personality development which helps the students to develop an all-rounded perspective. The school also has a dedicated placement cell which provides opportunities to the students to gain gainful employment.

Going ahead the school plans to have a renewed and an increased focus on bridging the gap between the industry practices and the academics and in order to ensure this, the school plans to organise industry conclaves, panel discussions and industry visits. This in turn will further enhance and strengthen our placements and provide suitable career avenues for the students. We would also further strive to ensure that we meet the expectations of all our stakeholders (parents and students) with increasing vigour and enthusiasm and involve them at each stage of this educational endeavour.

THE ART & SCIENCE OF TEACHING

Dr. Rakhi Raturi

*Those names visible on the computer screens are always
misunderstood,
Are they listening to me?
Am I able to create a connection with them?
Who are they in person?
What intellect do they have?
I am judging them too hard
Not realizing their true heart
Yeah, they sing, they joke and they are amazingly talented.
They have got lovely emotions and connect even online
It's difficult for me to teach them without faces
but it's equally difficult for them to feel the classroom vibes
They yearn for mischief, roaming around and the canteen chatter
their physical college fun and learning were much better
But we are in this together
and we would win it together!*

The poem mentioned above was composed while teaching students online. Thankfully, the phase is over, and life has returned to normal. The quick adaption of online learning tools has significantly altered how people view the concept of teaching. However, It's harder than ever these days to keep our students' attention.

It is a special position that I have as a teacher, from the first time I am given a particular course to the lifelong mentoring discussions that come after. As teachers, we balance living as ordinary folks and as an instructor who is never meant to be in the wrong. I must, however, acknowledge that not all of my lectures are flawless. Even I falter occasionally, and there are times when the class is too noisy for me to handle. Do I get apprehensive about returning to class then? Actually, no. You could be tempted to attempt teaching again with greater preparation as it might become addictive for some.

Although the art and science of teaching can be learned, each person will always have their unique teaching style. Some educators may employ humour, music, or the glories of nature to inspire learning. Good teachers typically share several traits, summarized in the 4Ps: Preparation, Passion, a Pleasurable Personality (more internal), and the ability to make one's Presence felt in the classroom. To establish an engaging classroom, teachers must spend time acquiring knowledge and understanding how to deliver it effectively.

One of the blogs summarised it beautifully: "We might call it charisma, but it's more than that. It's the ability to appear completely at ease, even in command, despite being the focal point of dozens (or hundreds) of people!"

1. Shark Tank India screening

We began with our first element i.e., of watching a 40-minute Shark Tank India episode to give the people who are not aware of Shark tank as a concept an insight as to what the competition is about and its purpose. We then moved onto the next segment, where the team discussed about one successful and one unsuccessful business/entrepreneurs from the established Shark Tank US show, to give an understanding of where these entrepreneurs stand today. This segment was about 15 minutes long. Coming to the last segment for the discussion round, the members and chairperson started the discussion as to make participants feel comfortable to pitch in and talk about their opinions about the show and entrepreneurs, etc. This provided a platform to exchange opinions and thoughts on the entrepreneurship sector and what are the key factors that makes a good entrepreneur. Upon discussion among the team members, other club members started weighing in the discussion, about how they felt Shark Tank India is different from USA, what their favorite pitch was from the episode, what they thought the entrepreneurs could've done differently, etc.

Menstrual Switch

No of Attendees: 30

The event was conducted on 8th January 2022, in Vashi Gaon, opposite Kerela Bhavan. The members actively participated in the planning process and the event went live after a lot of brainstorming. The members met offline at 3:00 PM at the campus and commuted (train, auto and car) till Vashi for the drive. Our avenue member knew the local social worker, Mrs. Richa Sameet who helped us in this drive, as it was her initiative of adopting two slums in the bhavan and was glad to give us the opportunity to talk to the local women and preach the importance of menstrual hygiene and its necessity. The slum roughly had 300+ women living there.

The women lined up for the drive and the members handed out pads to each woman and girl. We distributed 150 pads among them as the drive was a commendable success. The idea initially was to distribute cotton pads but was later developed to distributing regular pads. We chose regular pads because of the availability, convenience and hygiene. The reason this event was planned was to make sure we can contribute to the community by distributing sanitary pads on the occasion of Women's Day and make sure that we reduce the per month expenditure of these women by a few hundred rupees.

Let us introduce ourselves
We are Gen z
We are amazing let's agree

You had albums
And notebooks to write sums
we have instagram
And apps for notes to cram

You had cable TV
Maybe it fills you with envy
Cause we have Netflix and Prime
To blissfully pass our time

You sent food to neighbours
To keep them in your favour
we send streaks
These are our little tweaks

You danced in weddings
With elegant settings
we dance on reels
Following trends gives us the feels

You had actors
Those were the chapters
we have influencers
They also swoon us

You are morning birds
A Little less of nerds
we are night owls
But we make less fous

WINTERS ARE COLD
THE WINTER OF 2021 WAS COLDER
WINTER SCARS HURT MORE
AND LAST LONG.

A SOUL REACHES THE SKY,
AFTER 63 COLD WINTERS.
IT HAD A HARSH WINTER ATLEAST HARSHER THAN MOST OF US.
SINCE IT LEFT DARKNESS BLOOMED FOR LONG TIME,
PITCH BLACK.

WHILE THE ONE'S DOWN HERE WONDER
WHO'S GOING TO GUIDE, AND PROTECT THEM
FROM THE COLD - NOT THE WINTER
BUT THE PEOPLE.

I WONDER IF IT WAS FOR THE BETTER
MAYBE IT'S WARMER UP THERE
IN THE HEAVENS, LIKE THE WARMTH I FEEL
FROM MY GRANDMOTHER'S PIGUANT
BUT SWEET SMELLING HOUSE'S FIREPLACE
MAYBE THE SOUL BRIGHTENED UP THE HEAVENS.
MAYBE IT'S SPRING UP THERE RIGHT NOW.
I DON'T KNOW BUT I HOPE I'M RIGHT.

WINTERS ARE COLD
BUT THE WINTER OF 2021
HAPPENED TO BE COLDER
NOT JUST FOR ME BUT FOR EVERYONE
AND THE COLDEST FOR THE SOUL
THAT REACHED A WARM PLACE.
